Wk 1 Homework

I want to build an application for e-commerce of my baked goods.

Local and surrounding areas will be using my application

Each page will have a Home Page, about, menu, featured item, contact us, and gifts page

I want the functionality of each page to be a working page that encourages to add baked goods to the shopping cart

The purpose of my application is to be able to expand my audience

The business problem it will solve is that it will make ordering and seeing my baked goods 24/7.

- I want to build an application that showcases my baked goods.
 - Local and surrounding areas will use my application
 - I will have Text, Pics/images/ Navigation, logo
 - The functionality of the 1st page will be a landing page that navigates to pages 2-5
- The purpose of my application is to increase business
 - The business problem it will solve will be accessibility to a broader audience

CSS Variable Icon font

Add the variable font stylesheet request to your head tag
and the current variable axes configuration to icons using CSS.
